- Size range from 10 ltrs/sec to 150 ltrs/sec.
- Polyethylene construction eliminates corrosion issues at lighter weights.
- Galvanized swing away toggles for ease of access for basket maintenance.
- Basket made from Stainless Steel 316 mesh.
- Air release outlet fitted to lid.
- Galvanized external fittings as standard, can be optioned as Stainless or G10 (epoxy/glass).
- Polyethylene materials are non toxic, non contaminating, potable water and food grade.
- Modern polyethylene materials ensure that modifications, upgrades or repairs are possible at all times during the working life of the item.
- The size, numbers and arrangement of inlet/outlets are variable to suit specific requirements.
- The full face, full nominal bore Poly Maxi Flange is a perfect product partner for the Rodney Industries' Leaf and Lint Suction Strainers.
- We also manufacture concentric and eccentric flanged reducers in Poly, Galvanized or Stainless.
