DON'T PLAY WITH FIRE... CHOOSE RODNEY INDUSTRIES' FIREBUGS

For more than 35 years Rodney Industries have been supplying the Australian market with the iconic "FireBug" Fire Control Drip Torch.

Our FireBug Drip Torches are available in either a 4 litre or 5 litre model - with the 5 litre complete with a retractable wand for easy storage.

The lightweight aluminium body means that the end user is not required to lug a heavy unit around even when full.

The gravitational feed of the Drip Torch allows the unit to drip fire, making it simple and quick to operate.

Other features of the FireBug include:

- Tank is constructed from aluminium; both machined and casted.
- Brass fittings for longer life & durability.
- Powder coated for protection.
- Bio fuel compatible.

OFFERING THE COMPLETE PACKAGE

Spare parts are readily available for our FireBug Drip Torches; from the wick, all the way to the sticker. If your customer requires a part urgently, we can ship direct to them to speed up the process.

4 LITRE FIREBUG
