OUR COMPANY

You may not be aware, but Rodney Industries has been around for 50 years!

Yes, people and products have come and gone but we do know the industry and we are always here to help you and your customer in any way we can.

Rodney Industries has a manufacturing facility located in Chermside, Brisbane, employing 55 manufacturing, sales and administration staff. Rodney Industries manufactures and supplies a wide range of metal and plastic products to the irrigation, mining and civil sectors Australia wide. Rodney Industries also exports its products worldwide and has customers in Japan, New Zealand South Africa, Canada, The Pacific Islands and Papua New Guinea and most recently the UK.

Rodney Industries Produces a range of low pressure self propelling travelling irrigators ranging from small RI10 suitable for large yards, sports fields and golf courses etc. right up to the 100meter Boom SB2000 suitable for large scale crop irrigation.

Rodney Industries also imports and distributes the Marani range of Hose Reel type irrigators in both big gun and Boom configurations. Rodney Industries also has the distribution rights for the highly successful Briggs Boom.

Rodney industries produces an extensive range of hot dip galvanized metal fittings including, flanged pipe, valves, foot valves, check valves, strainers, tapers, hose joiners and channel flow control gates.

Rodney Industries manufactures and distributes a large range of HDPE fittings, Strainers, floats, foot valves and carries out custom pipe spooling. We provide high quality HDPE sweep bends using proprietary technology.

For more than 35 years Rodney's has been supplying the Australian market with the iconic "Fire Bug" drip torch.

Rodney Industries products have a reputation for being very high quality in both build and functionality. With the strong financial support of its owners Rodney Industries is continuing to improve its manufacturing capabilities utilizing up to date plant and equipment, and developing its products using new materials and technology.

CERTIFICATION

In 2014, all three divisions of Rodney Industries; Metals, Plastics and Irrigators acquired ISO Certification.

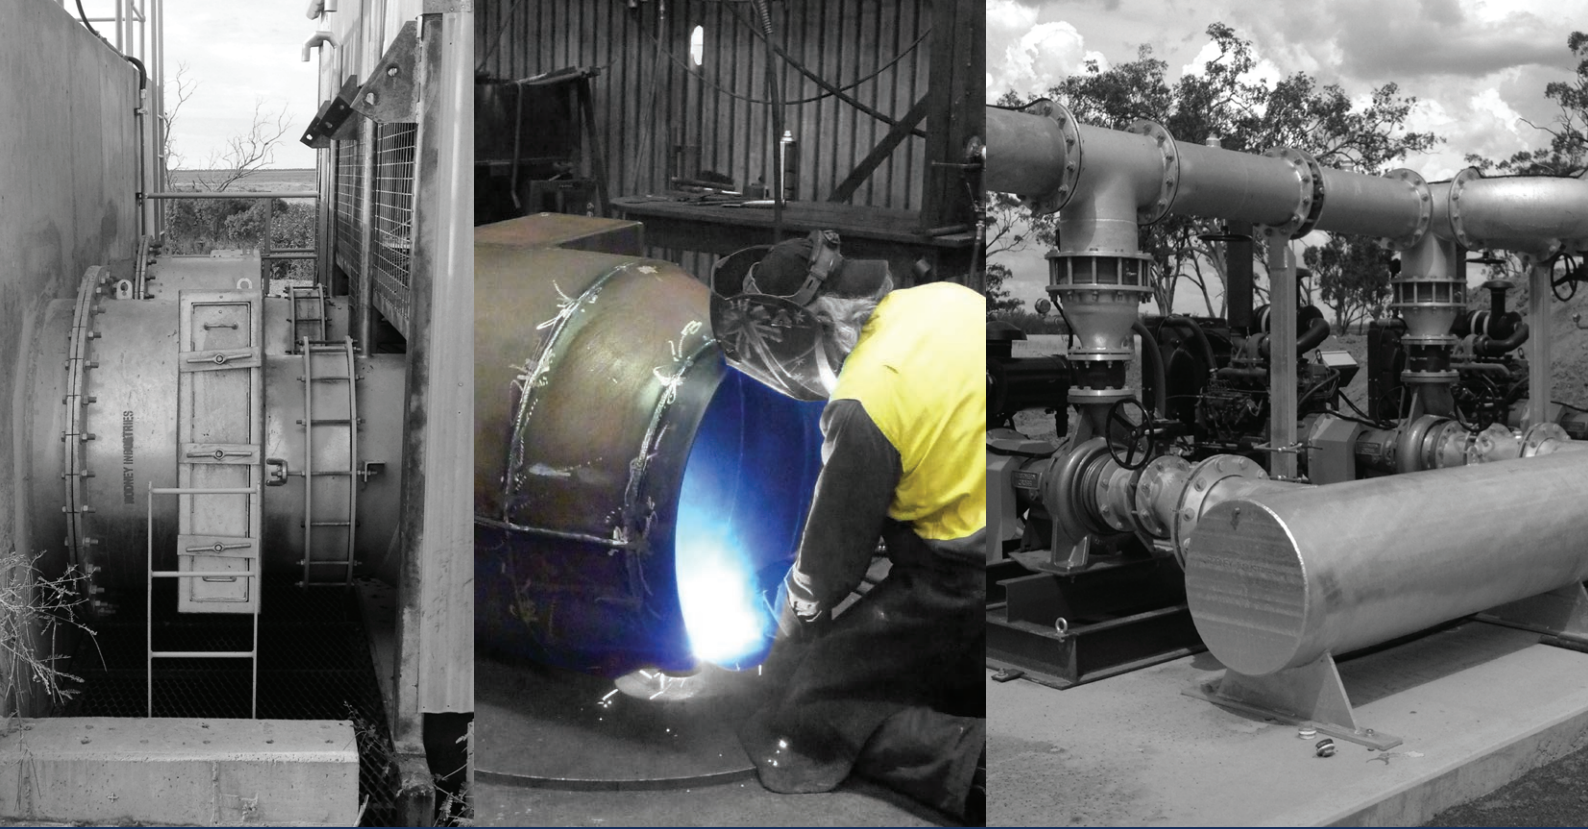

What does this mean as a customer? It means that you can be assured that the design and manufacturing process of our fittings meet Australian Standards.

A copy of the certificate can be sent to your office upon request.

Registered by:
SAI Global Certification Services Pty Ltd (ACN 108 716 689) 680 George Street Sydney NSW 2000 Australia with SAI Global
Pty Limited 680 George Street Sydney NSW 2000 Australia ("SAI Global") and subject to the SAI Global Terms and Conditions
for Certification. While all due care and skill was exercised in carrying out this assessment, SAI Global accepts responsibility
only for proven negligence. This certificate remains the property of SAI Global and must be returned to SAI Global upon its
request. To verify that this certificate is current please refer to SAI Global On-Line Certification register at

Rodney Industries

HARD HOSE IRRIGATORS ORMA RANGE

Introducing Rodney Industries' newest range of irrigators - the ORMA Hard Hose Travelling Irrigators.

The innovative high performance ORMA turbine drive allows the utilisation with various water qualities, including recycled and the possibility to add fertilizers.

Their range of irrigators are the result of the ongoing innovation and experience since the 1970s.

The ORMA irrigation machines are characterized by careful attention to details, robustness and ease of use.

Applications for the range include:

Turf Watering

Playing fields, parks, gardens, lawn planting, golf courses, race courses.

Agriculture

Small crops, nurseries, turf farms.

Rodney Industries

THE COMMISSIONING OF A GIANT

Rodney Industries successfully completed the commissioning of the largest Marani Hard Hose Irrigators imported into Australia from Italy.

The machines were the ITS100Bs and were equipped with 700metres of 140mm Polyethylene pipe.

Due to the physical size of these machines, they were shipped directly from the wharf to site outside of Bundaberg. The machines were then assembled by Dion Cunningham and Neil Robertson from Rodney's and were in operation on the second day.

Marani Irrigators are really gaining popularity around Australia and are now being sold in most areas. Rodney Industries are able to provide a very professional service and back up assistance.

The machines will be extensively used for the pre-watering of seed beds and in the irrigation of sugar cane.
